The News.

We learn from Washington that the threatened duel between Messrs. Hughes and Harris, has been prevented by the sensible interference of mutual friends. The municipal election there resulted in the success of the Democratic candidate for Mayor, by a fair majority.

Now Orleans is still in the hands of the Vigilance Committee. The charter election resulted in the choice of the Anti-Vigilance Committee candidates. The trouble is not yet over.

From Kansas we have the particulars of the affray between Messrs. Lane and Jenkins, which resulted in the death of the latter.

The war fever in Congress is abating, though all necessary steps will be taken to prevent a recurrence of the outrages complained of.

Some apprehension is felt of an Indian outbreak on our Western frontier, and the Secretary of the Interior has asked for means to suppress it.

Our St. Louis exchanges bring accounts of extensive damage by the floods in Missouri and along the Mississippi.

We have full details, this morning, of the distressing calamity at Roscoe, Illinois, where a mother and eight children were drowned by the breaking away of a railroad culvert.

The people of Maine, on the 7th inst., by an almost unanimous vote, ratified the Prohibitory Liquor Law, passed at the recent session of the Legislature of that State.

The New York Produce Market, yesterday, showed a slight decline. In our own market, with good receipts and a brisk demand, prices touched the highest figure of the season; club selling up to 72a73 cents.

The weather, yesterday, was clear in the morning, but cloudy in the afternoon, with rain at night.

The Editorial Convention.

We publish, this morning, a communication from Mr. Hoyt, of Madison, relative to the time for holding the Editorial Convention. We still adhere to the opinion that the time first fixed upon, the 16th of June, was the best, and that the Madison Committee of Arrangements had no authority to change it. At the same time, we do not question that, in announcing the change, they supposed that they were consulting the convenience and carrying out the wishes of a majority of the Editorial fraternity. We judge, however, from the tone of our exchanges, that they mistook the sentiment of the press.

We shall now leave it to Mr. Pomeroy, of the Horicon *Argus*, and his associate Secretary, Mr. Hoyt, to agree finally upon the time, and will, for one, cheerfully abide by their decision. The Madison papers, with their customary disregard of truth in all that concerns Milwaukee, charge upon the Milwaukee press a design to "break up" this Convention. Nothing could be more unfounded or unjust. The Milwaukee papers have done all in their power to encourage the gathering, and the only "hitch" in the matter has been occasioned by the domineering conduct of the Madison Committee. They have yet to learn that Madison is *not* Wisconsin.

That New Party.

A special dispatch from Washington, to the N. Y. *Tribune* of June 4th, contains the following:

"The professed programme of the "People's Party of the Union," sent from here, was concocted by a few irresponsible individuals, having no authority to use any of the names which have been published in connection with the movement. The whole affair is disclaimed by men such as Messrs. Crittenden, Bell, Marshall and the like, whose influence has been impertinently assumed to prop up the scheme."

As the *News* has represented the New York *Tribune* to be the "organ" of this "new party," we presume that it will make haste to publish the above "official" dispatch.

Damage done by the Flood in Washington Co.—The Washington Co. *Democrat* in, its last issue, gives an account of damages done by the recent freshet in the vicinity of West Bend. It says:—

Messrs. Young's dam situated a mile east of this village, was carried away, also a large quantity of lumber.

Hoppy's dam on Silver Creek, a mile west of here was swept away.

The mill dams all along the river have had a severe trial, and it was only through the greatest exertions that any of them were saved. Many of the citizens of this place turned out, and shovelled gravel like good fellows, as they did at Barton.

Heth's foot bridge was carried away, and the owners of shops down on the flats next to the river, were obliged to secure their buildings to prevent them from going down stream.

Later.—On Sunday (yesterday) morning, a part of the dam at Barton was carried away.—The bridge across the river at that place was also partly destroyed, and rendered impassable.

In attempting to remove and save the timbers of the bridge, D. C. Bastion fell into the river, and narrowly escaped drowning.

We learn that the river, below here, has spread herself all over the banks, completely inundating all the bottom lands. The damage to the growing crops will be immense.

We learn, also, that all the bridges on the river north of Cook & Elliot's, have been carried away.

We hear, also, of the loss of several mill dams in the southern part of the county.

The Unemployed at Detroit—Trouble Anticipated.—The Detroit *Tribune* of Friday, says that gatherings of the working men out of employment, are held nightly there, and are likely, if kept up, to eventuate unpleasantly. A few nights since they assembled at the City Hall, and demanded admittance, declaring their purpose to hold a meeting. The most incendiary speeches, urging robbery and force, were made by a few of their leaders. A gentleman addressed them in German, advising them that it would do no good to resort to force, and succeeded in quieting them somewhat. The next night they also assembled, and drew up a petition to the Council, asking or rather demanding employment. The *Tribune* says:

"During the day a committee of six of their number waited upon the Mayor and had a lengthy conference, of course resulting in nothing very satisfactory. These men are very foolish in making these demonstrations, but we presume are led on by a few designing men whose arrest will take place if they do not speedily desist in their treasonable plottings."

For the Daily Sentinel.

Editorial Convention—Explanation of Postponement.

Messrs. Editors:—It is certainly desirable that the utmost harmony should prevail among the brethren of the press, as to the time and circumstances of holding the proposed Editorial Convention. And inasmuch as there is a difference of opinion respecting the postponement, by reason of which it has been unqualifiedly announced in some papers, that it would positively be held as first determined, on the 16th of June, and in others with equal positiveness, on the 5th of July, it seems proper that the whole affair should be duly explained, and, if possible, set at rest.

It is true that the time agreed upon at the last Convention was the third Wednesday of June; but the decision was made at the very close of the session, when but a small number of the members were present, after some little discussion as to whether June, or July would be the better month, and without any appearance of that decided partiality which has, of late, so suddenly and unexpectedly developed into a marked pertinacity.

Accordingly, as the authorized representative of the Association, I announced at an early date, that the Second Annual Meeting would be held on the 16th day of June. When, however, it was ascertained by the Committee of Arrangements, that measures had been taken by the citizens of Madison to celebrate the day of our National Independence in such manner as would afford an agreeable entertainment to the several members of the Convention, it appeared to that committee desirable, both for their own convenience, and the better accommodation of the Association, that it convene on the 5th day of July. Yet not satisfied with the policy myself, for reasons which the sequel has shown to have been valid, I declined the responsibility of an arbitrary change, and issued a circular announcing a *conditional* postponement,—the condition being, that the press should favor the change—that "serious objections" should not be made.

Serious objections were made, however, in process of time, but were so slow in making their appearance that before a considerable number of papers had in any way noticed the proposition, or at least objected thereto, it was too late either for the committee to make due preparation, or for editors remote from Madison to learn the final decision in time to arrange to be present.—Moreover, the recent floods had so damaged nearly all the roads of the State, as to render it hardly probable that unembarassed travel could be resumed before the 16th inst.

In view of all these circumstances there seemed nothing left to the committee, however much they might regret a want of perfect concurrence, but to positively postpone the meeting of the association—not to the 5th, which about one-third of the editors of the State had declared inconvenient, but to some other time—and such time as would, in all probability, meet the wishes of all concerned—those who opposed, as well as those who concurred in the change to the 5th. The 8th of July, as falling in the middle of the holiday week, was therefore determined upon, and will be, as I believe, a more favorable time, all things considered, than any other during the season.

I feel deeply interested in the objects of the association, and most sincerely regret the reflections which have been unjustly cast upon the committee, whose sole aim in the whole matter has been to make the best possible provision for their brethren of the Press.

Believing that the foregoing considerations will have their due weight, and be received by yourselves and the entire fraternity in a spirit like that which has prompted their detail; and earnestly hoping that we may yet have an harmonious and glorious convention on the 8th of July, I have the honor to be, sirs,

Very respectfully, yours,
J. W. HOYT,
Cor. Sec'y Wis. Ed. & Pub. Association.

Marquette County Division.—The Marquette *Express*, of June 4th, states, that the proposition to divide Marquette County, and organize the County of Green Lake, which was submitted to a vote of the people on the 1st inst., has been carried by about 200 majority.

Tragedy in Texas—Seven Persons Murdered.

Belton, Bell Co., Texas, May 18.

I have to record an awful tragedy that occurred in Brown County, in this State, last week. Two entire families, consisting of ten persons were all murdered in cold blood, for money, with the exception of three children, the oldest a little girl only eight years old, and one an infant, who was found sucking its mother's breast, twenty-four hours after she had been murdered. They were murdered by four men from Lampasas County, who professed to be out on a surveying expedition. They knew that those families had money, and they went disguised as Indians, thinking that by murdering the whole families, none but Indians would be suspected. The little girl, however, recognised one of them, who had frequently been at her father's house.

She made her escape into the field where her father was ploughing, where she found him murdered. She then went nobly to work with her little hands, and completely covered him up with dirt, to keep the buzzards off until she made her way to the nearest settlement, and gave the alarm. The neighbors all then collected, and went in pursuit, and finally traced them to their homes in Lampasas County, where they arrested them after a desperate resistance by themselves and friends. The parties were men of property, and respectably connected. The party having them in charge passed through Coyell County last Wednesday, on their way with them to the place where the murders were committed, where I have no doubt they will lynch them. They were securely bound, and guarded by about forty men.

Terrible Accident — A Boy Crushed to Death!—Yesterday afternoon, a German boy, between 16 and 17 years of age, named John George, was instantly and horribly killed, at the sash and door factory of S. S. Barrows, on the corner of Congress and Third streets.

He had been at work in the shop but a few days, and had nothing to do with the machinery, and was, therefore, less careful while about it than he otherwise would have been. He obtained permission from the foreman to go into the basement of the shop and grind a plane iron.—The grind stone is driven by machinery, itsshaft being connected with a large drum on a main shaft, by a belt, running in an inclined plane position.

After he had gone into the basement, the workmen heard a thumping against the floor under their feet, which they at first thought to be a large belt which sometimes got loose and coiled up around the shaft, the end flying loose and striking the ceiling above. But the noise continuing, they became satisfied it was not that, and proceeded to the spot, when they were horrified to perceive the boy coiled up in the belt, revolving with great rapidity, and at every turn striking the ceiling above. The machinery was instantly stopped, and his body, broken in nearly every bone, was taken out. The top of his head was knocked entirely off, his arms broken in several places, and his entire brain lodged on a window sill, some twelve feet distant. The ceiling was not plastered, and his head struck the joists at every revolution, scattering blood and fragments in all directions. The floor was one mass of blood for several feet each way.

It is supposed that he accidentally became entangled in the belt while attempting to step over it, or crawl through it, when it was in swift motion. His poor father and mother were soon on the spot, almost distracted by the horrible death of their only son.—*Detroit Tribune.*

First New Wheat.—Messrs. Henning & Woodruff received, on Saturday morning, thirty-three sacks new-crop wheat, raised on the plantation of W. P. Mitchell, Esq., Shelby county, Tennessee. It was shipped from Memphis by Gates, Wood & McNight, and was sold, immediately on its arrival, to G. P. Plant & Co., of the Franklin Mill, at the fancy price of $2,25 per bushel. Mudd & Hughes received, on Saturday afternoon, another lot. The wheat is plump, of good color, and will make superior flour.

We learn that large shipments from the South are anticipated for the next thirty days.—*St. Louis Democrat, June 7th.*

For Chicago.—Steamer *Traveller* leaves every morning, (excepting Sunday,) from Johnson & Olmsted's Dock, at 9 o'clock.

For Two Rivers.—The steamer *Cleveland* leaves every morning, (excepting Sunday,) at 7 o'clock, from same place, for Two Rivers, stopping at Port Washington, Sheboygan and Manitowoc.

For Green Bay.—The steamer *Arctic* leaves for Green Bay, from Johnson & Olmsted's dock, every Wednesday, at 8 o'clock P. M.

For Grand Haven.—The steamer *Forester* leaves Kellogg & Strong's dock every morning, (Sundays excepted,) at 8 o'clock, for Grand Haven—Detroit & Milwaukee R. R. connection.

For Buffalo.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

For Ogdensburgh.—A tri-weekly line of propellers also run to Ogdensburgh.

Griffin & Burns, at the foot of East Water street, are the Ticket Agents for the above lines.

Lake Superior.—The *Lady Elgin* leaves Dousman & Co's dock June 11, making eleven day trips during the season.

For Collingwood.—A tri-weekly line of propellers run to Collingwood, stopping at intermediate ports, and leaving this city on Sunday, Wednesday and Friday of each week.. L. D. Jerome, Agent.

☞ **LET EVERY BUSINESS MAN REMEMBER, that the DAILY SENTINEL has MORE THAN DOUBLE the Circulation of any other Paper in Milwaukee, and is, therefore, the CHEAPEST AND BEST ADVERTISING MEDIUM in the City.**

The Milwaukee & Mississippi R. R.—We learn that the unusually high water in the Wisconsin has interrupted the running of the trains on the Western Division of the M. & M. R. R.—The bridges stand firm, but the embankment, along some of the lower levels, is badly washed. Arrangements were in progress, yesterday, to have a steamboat run up from Prairie du Chien to the lower bridge, to connect with the trains and prevent any detention of passengers.

Mysterious Disappearance of a Drover.—Some of our contemporaries noticed, last week, the disappearance of a drover, named Richard Hughes, and expressed the fear, that the missing man had been foully dealt with, by some person or persons, supposing him to have about his person the proceeds of a sale of cattle, which he brought to this market. We made enquiry, yesterday, of parties acquainted with Hughes, and were informed that nothing has been heard of him, since he so mysteriously disappeared, something better than a week ago, nor could they form any conjecture as to his whereabouts. Hughes was a Welchman, and was in the employment of Mr. J. Linden, of Watertown, with whom he brought in a number of head of cattle, to be sold here. All of the cattle had been sold but five head, which were left at the Bull's Head Cattle Market, Mr. Hughes to take care of them until disposed of. These were sold a week ago last Monday, and the money sent to Mr. Linden, as was the usual custom.

The next morning Hughes was seen at or near the American House, in this city, which appears to be the last seen or heard of him. The most diligent enquiry has been made, but no clue has yet been discovered to unravel the mystery of his sudden disappearance, and some of his friends fear that the belief that he had a large sum of money in his possession has induced some wretch to murder the man. Hughes was between 40 and 50 years of age, and, we believe, has a family living at Portland, in this State.

Enforcing the Ordinances.—The police, we are glad to see, are determined to enforce the ordinance relative to hanging out clothes over the side walks. Quite a number of clothing and dry goods merchants have been fined for its violation during the past two days. This is right, and we hope the police will continue to enforce the law against this nuisance. The store keepers were getting so that they monopolized nearly the whole of the side walks; one could not walk down East Water street of a breezy day without at every step running the chance of getting a slap across the face, from a silk or cotton petticoat, or second-hand pair of pants, or some other such traps, all very well in their place, which, however, is not dangling out on the side walks. Some of the *old clothes* dealers are particularly incensed at the enforcement of this law, because its non-observance afforded them an opportunity of exhibiting and airing their rags at the same time, utterly disregarding the appearance of the streets, or convenience of pedestrians. There is no injustice in the ordinance when all are compelled to observe it, and we hope the police will continue to enforce this, as well as the other nuisance ordinances.

Take a Glass!—Now that the warm days are at hand once more, we shall feel the necessity of keeping cool by taking an occasional glass of Soda Water. To those who are not aware of the fact, we desire to say that Allcott, opposite the *Sentinel* office, keeps a capital soda fountain, from which hundreds of our thirsty citizens imbibe the sparkling beverage daily. Don't think of passing there on a warm day, without taking a glass. Besides soda water, Allcott keeps almost everything else that one can think of, in the shape of fancy articles, drugs, medicines and pure liquors for "medical purposes." He has one of the neatest and handsomest stores in the city. The ladies will find every variety of perfumery, foreign and domestic, and all of the manifold toilet compounds in use. Give Allcott a call, whenever you may need anything in his line, and you will be sure of being well used.

A Good Idea.—We perceive that an enterprising fish dealer, named L. Zeimer, has put up a neat fish stall in the Market House, for the sale of Lake fish at wholesale and retail. This is a capital idea, and it is an institution which we have needed here for many years. It is particularly convenient to people in the city, enabling them to procure every variety of fresh fish caught in the lakes, without the trouble of running after hawkers, and then often being obliged to buy a doubtful article. Mr. Zeimer also packs a large amount of fish, for the wholesale trade, in packages that can be shipped to any part of the State. He gives notice that all orders left at his stalls, Nos. 10 and 11, Market House, will receive prompt attention.

New Camphene and Burning Fluid Depot.—By a notice in another column, it will be seen that Mr. F. Goll, has established a depot for the sale of camphene and burning fluid, and lamps, at No. 344 East Water street, between Biddle and Martin streets. Mr. Goll has for many years been an employee of the proprietors of the *Sentinel*, as Engineer, in which position, he won their esteem, by the ever prompt and ever faithful manner in which his duty was discharged. We wish "Fritz" all the prosperity he justly merits in his new avocation.

A New Advertising Medium.—Robert Kerr, the enterprising City Bill Poster, has got up an advertising wagon, which he has daily drawn through the streets covered with posters and placards. In going through the streets it looks like a tent, such as we often see upon fair grounds, with a horse head sticking out of one end, with the difference of being covered with printed characters instead of canvas. Its ridiculous appearance attracts a good deal of attention.

Young Men's Association.—The first regular meeting of the new Board of Directors of the Young Men's Association, was held at the rooms of the Association Monday evening.

Present:—May, Gridley, Edson, Dennis, Spink, Price, Johnston, Terry, Caverno and Fitch.

The following gentlemen were appointed as the standing committee, for the present year.

Library and Reading Room.—Dennis, Caverno, Johnston.
Debating Society.—Johnston, Fitch, Edson.
Lectures.—Perry, Ilsley, Gridley.
Finance.—Price, Spink, Ilsley.

A communication from Mr. John Hepburn, was received, and the following resolutions, on motion of Mr. Caverno, unanimously adopted:

Resolved, That the Board of Directors of the Young Men's Association, tender this expression of thanks to John Hepburn and friends for their contribution to the Library of "Volney's Ruins of Empires," and "Mirabauds System of Nature."

Resolved, That the Secretary deliver to Mr. Hepburn a copy of the foregoing resolutions.

Accounts passed, $24,31.

On motion, the Board adjourned to Monday Eve., 21st inst.

W. G. Fitch, Sec'y.

Ruin of an Apple Stand.—About noon, yesterday, a horse with a wagon minus one wheel behind him, came tearing up East Water street at a frightful pace. In order to avoid a buggy containing a couple of ladies, the runaway animal turned in front of Ludington's Block, dashing at full speed over an apple and candy stand in front of the Juneau Bank, and bringing up against a post in the middle of the ruins of the apple stand. A large crowd of people, as usual, were standing on the corner, and it was amusing indeed to see the stampede which took place to make room for the runaway horse. Nobody, fortunately, was injured. The boys then had a great time in picking up the scattered apples.

The Circus—Last Day.—The Circus leaves to-morrow morning, and therefore this afternoon and evening will be the last opportunity of witnessing the performances of Cooper & Myers Troupe. At each entertainment, thus far, the large tent has been well filled, with admiring spectators, and all appear well pleased, and greatly amused with the performances. To those who have not yet attended this Circus, we say, go to-day, by all means.

Police Court Yesterday.—Wm. Breach, was brought up on a charge of indecent exposure of his person, but found not guilty. Two men arrested for fast driving on a bridge, were discharged on account of the bridge tender's not appearing against them. Seven East Water street store keepers, were brought up and fined $3 each and costs, for obstructing the side walks by hanging out clothing, &c., over them. Thomas Craston, assault and battery, was fined $5 and costs.

Fire Department Notice—Fourth of July.—The officers of the several Companies in our Fire Department are called together, *this* evening, by the Chief Engineer, to talk over the celebration of the approaching National Holiday. Let there be a full attendance.

More Rain.—The clouds gathered again, yesterday, and towards evening the familiar sound of the falling rain once more greeted our ears.—It was neither wanted, nor welcome.

Chestnut Street Bridge.—The new bridge at Chestnut street is now almost entirely complete, and needs only a little filling up at the abutments to make it fit for use. It is a fine substantial structure, and looks as if it would last for ages. The new bridge is somewhat similar to the bridge across the Menomonee, but considerably stronger than it. The people of the Second Ward will be glad when it is finished.

The Benefit of Advertising.—A Buffalo exchange says that a gentleman of that city, advertised a lost pocket book, containing a large amount of money, a few days since in the city papers, and immediately upon the advertisement coming out, his wife found the missing treasure stowed away in an overcoat pocket!

Payment of Taxes.—About $75,000 of the Taxes was paid to the City Treasurer last week. On Monday he commenced selling lots on which taxes were unpaid, and will continue to sell one or two, daily, till Monday, when he will be obliged to hurry the sale, right along. Delinquent taxpayers will govern themselves accordingly.

Board of School Commissioners.—A special meeting of the Board of School Commissioners will be held at their room *this* evening, at half-past seven o'clock. The Committee to make arrangements for a School Celebration, meet at the Secretary's Office, this afternoon at 3 o'clock.

Turtle Soup Lunch.—The lovers of Turtle Soup, will bear in mind that the proprietors of the "Golden Gate" serve up a Free Lunch, at 10 o'clock to-day.

☞ Caleb Wall, the City Auctioneer, has a sale of Dry Goods this morning at 10 o'clock. He will sell staple goods. Great bargains may be had.

☞ Sons of Malta meet to-night at half past seven o'clock.

☞ See advertisement for agents in another column, headed "A Book for every Man's Library."

Very Small Capital Required.—Great, Certain and Sure Investment.—Agents wanted everywhere to sell Bartholf's Patent Sewing Machines, licensed under E. Howe, Jr's Patent, September 10, 1846.

"These are the first Sewing Machines using a needle and shuttle practically established in America."—*New Yorker.*

The general Agent having arrived in Chicago, will exhibit a specimen machine, and make arrangements, &c., intending to remain until Saturday, 12th inst. See Chicago papers. Principal office 489 Broadway, corner Broom Street, N. Y. Send for a circular, address box 2841.

☞ To Mothers of Milwaukee.—Would you apply poisons to the delicate nervous coating of the stomach, for a local difficulty like a Felon, a broken breast, a painful swelling, &c., &c.? By no means. Then do not give poisonous narcotics and irritating drugs to your child for Croup, but apply De Grath's "Electric Oil," and if it don't cure the Croup in one day come to the Office and get $50. Only office, 39 South Eighth st., below Chestnut street. This Oil will take out a burn in 20 minutes.

☞ For sale by Bosworth & Sons, and J. H. Tesch Milwaukee; Fahnestock & Davis, and Reed & Co. Chicago; and by Druggists and Merchants generally throughout the country. je9d&w1w

☞ A good-looking friend of ours, who is on this side of forty, though somewhat heavy-headed, while absent from the city a few days, used Prof. Wood's Hair Restorative, and on his return called to see his lady-love, but was amused to find she did not recognize him; and immediately determined to pass for a cousin of himself, but was eventually chagrined to find he was supplanting his former self in the affections of the lady, which caused him to make himself known; but the lady still says that she likes the counterfeit better than the original, and insists that he continue, if necessary, to use the Hair Restorative. To be had of the druggists.—[St. Louis Morning Herald. Sold by all good Druggists.

Congressional Proceedings.

Washington, June 7.

Senate.—Mr. Hunter, from the Financial Committee, reported a bill making appropriations for carrying the trans-Atlantic mails. Mr. Hunter also introduced a resolution relating to the expenses of the next fiscal year, the purport of which was that the Executive shall instruct the heads of the departments to confine their estimates within the limits of sixty-four million dollars.

Bills were passed granting pensions to the widows of Gen. Jones and Gen. Gaines.

Considerable discussion followed the proposal of Mr. Slidell to limit the pension to their widowhood, which was not agreed to.

Mr. Toombs, of Ga., bitterly opposed the pensions, while Messrs. Davis, Houston and others, paid warm tributes to the memory of Gaines, and charged a want of gallantry on the part of the Senator. Mrs. Gaines was in the gallery, and was doubtless edified by the debate.

House.—Mr. Savage, of Tenn., said, as the friend of Mr. Hughes in the difficulty between him and Mr. Harris, of Ill., growing out of language used during the debate on the Minnesota election case, he had met Mr. Hawkins, the friend of Mr. Harris. They had come to the opinion that no hostile meeting was necessary, and stated that the matter had been settled on terms honorable to both gentlemen.

Washington, June 8.

Senate.—The credentials were presented for the next senatorial terms of six years of Senators Hunter, Clay and Brown.

The Vice President laid before the Senate, the communication from the Peruvian Government, respecting the guano on the Peruvian Islands, which was laid on the table.

Mr. Bigler introduced a bill repealing the Atlantic Telegraph act of March, 1857.

The Army appropriation bill was discussed, and $25,000 voted for the alteration of the old arms into breech loading ones, of which sum $5,000 is to test the adaptability of Ward's magazine hammer for Maynard's primer.

The appropriation for the pay of the Florida volunteers of 1857, $3,850,000 provoked debate, as did the military committee's amendment, to devote $50,000 to the El Paso wagon route; and Mr. Douglas' amendment from the committee on Territories, to appropriate $100,000 for its extension to Albuquerque, all of which, however, were passed.

Mr. Davis, of Miss., from the committee on military affairs, submitted an amendment making an appropriation of $1,280,000 for the continuation of the fortifications on the Penobscot at Portland, one on lake Champlain at Fort Ridgeway, Station Island in Delaware Bay, at Baltimore, Richmond, Charleston, and various places in Florida, Mobile and various places on the Mississippi river, and at San Francisco.

House.—Debate ensued on the Senate amendment in regard to the arrangement with Messrs. Tate and Seaton, for printing the American State papers.

Washington Matters.

Washington, June 8, 1858.

The Secretary of the Interior has asked Congress for an appropriation of $100,000, to enable him to take measures to preserve the peace, in the northern superintendency, now threatened by invasion, by large bodies of hostile Yanctonias and Sioux. It is within the knowledge of the department, that great dissatisfaction has existed for some years among the turbulent bands of Sioux and Dacotah Indians, whose range is along the Missouri river, and is now about to manifest itself in the inauguration of hostilities on a scale of alarming magnitude.—The regular troops having been withdrawn, the frontier and settlements are left entirely unprotected, and great alarm exists among the settlers, who have appealed to the department for protection. The Secretary therefore earnestly appeals to Congress to act promptly in this emergency.

The Secretary transmits a letter from agent Vaughn, in which it is stated that the Sioux are in a belligerent and refractory condition, particularly the Meningrees and Nuchipa band. During the past year they have been robbing indiscriminately every white man passing through their country, and in many cases threatening their lives. The withdrawal of the troops from Fort Pierce has caused the Indians to believe that the government is afraid of them, and from their conduct and threats Mr. Vaughn is satisfied that no agent's life is safe in the distribution of annuities, without a suitable force to protect him.

The Secretary asks for $100,000 to redeem the promise made by General Harney, to the nine bands of the Sioux in 1855. These bands are among the wildest and most dangerous, within our limits. Good faith and sound policy demand the fulfilment of these stipulations, and it is said that unless measures are promptly taken, serious disturbances will likely result.

The President, to-day, communicated to the Senate the correspondence between De Osma, Peruvian Minister, and Secretary Cass, relative to the forcible and violent seizure of the American vessels Georgia and Lizzie Thompson, while engaged in taking in guano, under the charge of being engaged in contraband trade, and the imprisonment of the persons found on board. Our Government has claimed full satisfaction, both for this, and the boarding and detention of the Dorcas Cyeaton, by Peruvian armed steamers.

The Minister entered into a large argument in defence of Peru, and expresses the hope that nothing will occur to interrupt friendly relations. Secretary Cass, in reply, reminded De Osma that the case presented, was one for our very gravest consideration, and says that the cutting out of these vessels resembles piratical enterprise rather than an exercise of legitimate power.

He incloses a letter of Attorney General Black, which maintains that the whole proceedings of the Peruvian government was contrary to the law of nations, and repugnant to the principles of justice, and transmits a copy of his recent letter to Lord Napier, containing the strongest sentiments, for De Osma's information, concerning the position of the United States relative to the search or siezure of American vessels by those of foreign powers.

The House Committee on Foreign Affairs, came to no resolution this morning, on the pending difficulties with England. Several propositions were presented, among which that by Mr. Sickles, seemed to be the most favorably regarded. This authorizes national vessels to capture British vessels which attempt to overhaul American vessels, and permits our merchant vessels to arm, either singly or in convoys, and under certain regulations to make prizes.

The committee will resume the consideration of the subject to-morrow.

Messrs. Hopkins and Florence unite in entirely exonerating the Secretary of War and August Schell from improper and corrupt participation in the sale and purchase of Willett's Point.—Messrs. Wood and Hall of Mass., will severally make reports, but not, it is said, entirely concurring with Messrs. Hopkins and Florence.—Mr. Haskin, in his report, blames the Secretary of War and Attorney General Black, charging favoritism to the last named.

Mr. Berret's majority for Mayor is 57.

The Democrats and the anti-Know Nothings are also successful in all the wards but one; electing all the Aldermen, Councilmen, and Assessors therein.

The Senate to-day, passed the naval appropriation bill.

Mr. Mallory moved an amendment providing for the construction of ten steam sloops-of-war.

Mr. Hale proposed to reduce the number to 6—lost by 31 to 22.

The original motion was also lost, 24 to 29.

At a later period, an amendment authorizing the construction of five propellers and one side wheel steamer for the China seas—was adopted 18 to 17.

An amendment, giving the President power to issue letters of marque in certain cases, was rejected by a vote of 40 to 6.

The various propositions offered led to a renewal of the discussion of the recent British outrages in the Gulf. From the tone of the debate, it is evident that with one or two exceptions, the members of the Senate are disinclined to adopt any measures which will precipitate an issue with Great Britain on the question.

Kansas Matters.

St. Louis, June 8.

Leavenworth despatches of the 4th, say that the movement of the two columns of troops, yet to depart for Utah, is postponed on account of the extreme inclemency of the weather.

The Leavenworth *Times* of the morning of the 4th, announces the intention of Judge Lecompte to vacate his seat on the bench.

The action of the executive of Missouri, with reference to the arming and organizing the militia of the western counties of that State, is much depreciated here.

Destructive Fire.

New York, June 8.

The freight house at Hawkins, belonging to the Erie R R Company, was burnt, last Sunday, together with its contents, consisting of large quantities of leather, flour and other freight.—Loss heavy.

The Revolution in New Orleans—Charter Election.

New Orleans, June 7.

The election has gone in favor of the Americans. Gerard Stith is elected Mayor by a small majority.

The Vigilance Committee are still behind barricades. Not half of them voted. They say they will carry out resolutions to free the city of ruffians.

Great rejoicing in Lafayette Square, among the Stith party. The city is in an uproar.

New Orleans, June 8.

Gerard Stith, American candidate, has 290 majority. Many of the principal names on his ticket were defeated.

City quiet. The Vigilance Committee broke up last night—disbanded but not disorganized. They say they are ready to carry out their principles at any moment.

The municipal authorities are engaged in arresting all concerned in the Vigilance movement. Writs are issued for the arrest of the leaders, on a charge of high treason.

Vessel Capsized and Loss of Life.

Boston, June 8.

During a severe thunder storm this noon, the new schooner *Prairie Flower*, with thirty five passengers on board, was capsized in our harbor. Two men were drowned, and a boy missing, but the latter was probably picked up, as he was near one of a number of rescuing vessels who saved the remainder and brought them to the city.

The schooner belonged to Salem, and the passengers were taking a pleasure trip to Boston.

Later from Kansas.

St. Louis, June 7.

A Leavenworth despatch of the 5th, says the details of the affair at Lawrence, between Lane and Jenkins, are received. Both Lane and Jenkins were living on a claim which was contested. The former enclosed an acre of land, on which was a well used by both parties in common. Lane recently locked the well, fenced up the entrance, and forbade Jenkins access to it. Jenkins declared he would have water at all hazards. Lane threatened to shoot him, if he made a forcible entry upon his premises.

On Thursday afternoon Jenkins, accompanied by four friends, well armed, cut down Lane's fence, and proceeded towards the well, when Lane warned them not to advance or he would shoot. Disregarding the threat, Jenkins and his party advanced, when Lane fired, killing Jenkins instantly. One of the Jenkins' men then shot Lane in the leg, inflicting a wound that confined him to his bed. Lane was arrested and was to undergo an examination to-day. Much excitement existed.

Jenkins was held in high estimation, and his death was deeply deplored.

A man named Wm. Wells is in custody at Lawrence, and is charged with being a participant in the Linn Co. outrage.

The Democratic Convention in this city to-day nominated J. P. Barrett to represent this district in Congress.

Judge Gamble declined his nomination by the American Convention, as did also the gentlemen nominated for the State.

Another Convention is called to be held on the 14th inst.

Election Row in Washington.

Washington, June 7.

Good order everywhere prevailed up to noon to-day, and it was anticipated that the election would pass off without serious disturbances. The police were strongly represented, and arrangements were made to act efficiently and promptly. Skirmishes of short continuance took place at several of the polls, without serious results; but while officer Allen was attempting to arrest a young man named Richard Hurley, he was knocked down with a stone, near the Fourth Ward poll. Regaining his feet, he seized his revolver and fired, and then struck Hurley, dangerously wounding him.

After this he made his escape to the City Hall. A large crowd being in hot pursuit of him, when the mounted police arrived and quelled the outbreak.

Mayor Magruder did all in his power to pacify the excited assembly.

In another part of the city, a young man named Charles Sutter was wounded in the hand by a stray ball.

Several additional disturbances took place, in which stones and pistols were fired; but no one was reported injured.

Various false reports of disturbances put the mounted police in motion for special localities, and they made, during the day, a large number of arrests.

There is much excitement to-night, and the mounted police remain on duty.

11 P. M.—The inferences are that Col. Berret is elected mayor by several hundred majority, and that the democrats have a larger number of the Council than before.

A procession with music has paraded to the residence of the mayor elect, to offer congratulations.

Vote on the Prohibitory Liquor Law, Maine.

Portland, Me., June 7.

The Prohibitory Liquor Law, passed by our last legislature, was ratified by the vote of the people to-day, very few being cast for the opposition or license law. The vote in this city stood for prohibition 1257, and for license 23; Gorham, prohibition 254, license 1; Falmouth, prohibition 157, license none. Numerous other towns heard from show about the same complexion.

New Hampshire Senator.

Concord, June 8.

The Republican Senators, in caucus last night, resolved to adhere to the rule relative to rotation in office, which is adverse to the re-election of John P. Hale. The indications are favorable for the election of T. M. Edwards, of Keene, to the Senatorship.

Important from Washington.

New York, June 7.

The *Times'* correspondence of yesterday, says, Government will select the regiments in a few days, the War Department having no troops at its disposal keep open the communication between Leavenworth and Camp Scott.

A large number of strangers are in Washington of both parties, principally Baltimoreans. Several rows have taken place to-day. Every precaution has been taken against disturbance at the election to-morrow.

Mr. Sickles intends to introduce in the House, to-morrow, a bill authorizing merchant vessels to arm to protect themselves against search, violation and detention, and to make captures, which are to be condemned as pirates, and authorizing the President to employ the naval forces for the same purposes.

Tribune's correspondence says Butterfield & Co. will start an overland mail route to California, by the Southern route via Memphis, beginning on the first of July.

Affray.

Leavenworth, June 4.

An affray took place at Lawrence yesterday afternoon between Gen. Lane and Gains Jenkins, a prominent citizen of that city, resulting in the death of Jenkins. An old animosity existed between the parties, growing out of a disputed land claim. The intelligence was conveyed to this city by a special messenger. No particulars are given.

The Freshet.

St. Joseph, June 2, via Boonville, 5.

This section of the country has just been visited by one of the heaviest rain and thunder storms ever seen in this part of the State.—Grand Platte and Hundred and Two rivers are all overflowing their banks, doing much damage to the crops, fences and bridges, and the most serious consequences are feared. The extent of the damage has not yet been ascertained.

Leavenworth, June 3, via Boonville, 5.

A tremendous rain storm, accompanied by thunder and lightning visited this city Wednesday morning, flooding cellars, inundating a portion of the town, and causing much damage.—One house was struck by lightning and somewhat shattered, and the Delaware road bridge swept away.

The Missouri river is very full and rising.—Weather sultry.

Man Killed at the Tunnel.—We learn from Mr. McLean, of this place, who came from the Railroad Tunnel Saturday, that Michael Mulleu, an Irishman, was instantly killed in the Tunnel last Friday, about noon, by the falling of a mass of soft rock upon his head from the roof. The men with the carts had just passed out, and as they returned, finding the mass had fallen, and that one of the men was missing, they dug and found him buried under the fallen mass. The cartmen and shovellers refused to work there that afternoon and Saturday; but we understand they were to resume work to-day, (Monday.)—*Kilbourn City Mirror.*

High Water—Alarming State of the River.

Under the head of river news, on our fourth page, will be found this morning a full account of the present alarming state of the river at this point. We have one report from the Upper Mississippi that there is a rise of three feet coming out of the Des Moines; and another from the Upper Missouri of a rise of six feet at St. Joseph. When these floods shall be added to the threatening current already sweeping past the city, the consequences must by very destructive.

The track of the Terre Haute and Alton railroad on the Bloody Island, has been submerged, and the depot is now located in Illinoistown.

The water nearly covers the Ohio and Mississippi railroad track, and great exertions were made last evening to prevent the undermining of the rails and ties.

If the flood does not abate this morning, the stores on the levee must be abandoned during the day.—*St. Louis Democrat, June 7.*

Continued Decline in Trade.—The importation of foreign goods continues to decline. During the month of May just ended, the total importations at this port were only eleven millions and a half, against eighteen and three quarters during May, 1857, and eighteen and a half in May, 1856. The imports for the year thus far, compare as follows with the two last years:

Importations of foreign good, including specie, for

January to May (inclusive,) 1856	$90,340,252
Do. do., 1857	105,590,501
Do. do., 1858	51,868,192

In other words, we have taken less than half as much foreign merchandise this year as last.—Our exports compare as follows:

Exports for January to May,		1856	$42,366,919
Do.	do.	1857	47,460,641
Do.	do.	1858	36,516,465

Altogether the prospect is that by the month of August or September we shall have a pretty lively trade springing up, as people must be clothed, and prosecute their trades, and as the country must be getting bare of goods. The reduction of fifty per cent. in our imports is a grand sign. If we could keep up the reduction to this rate for some years, this would become the banking centre of the world.—*N. Y. Herald, 5th.*

"A Fair Business Transaction."

We did not suppose that the specifications which we published from the report of the Investigating Committee would be at all to the taste of the *News*, and are not surprised, therefore, that it should pass them all over in silence, with one single exception, and that the case of ex Governor BARSTOW. As to this, the *News* says:

We never have heard that that was other than a straight-forward transaction. Ex-Gov. Barstow was the President of the St. Croix and Superior Company; and in selling the franchises of that Company, it was his duty to make the best bargain possible for the corporators.

Turning to the report, we find that the bargain in question was for *one million of dollars* in La Crosse bonds, which the "corporators," ex-Governor BARSTOW and his friends, divided up, in something like the following ratio:

Ex-Gov. Barstow,	$87,760
E. M. Hunter, (Private Sec'y,)	58,600
Beriah Brown, (former Ed. Argus,)	58,600
A. T. Gray, (ex-Sec'y of State,)	54,000
A. Hyatt Smith,	54,000
Geo. B. Smith, (ex-Att'y General,)	9,000
Arthur McArthur, (ex-Lieut. Gov.)	4,500
Andrew Proudfit,	9,000
Isaac Woodle,	11,250
E. B. Kelsey,	9,000
Samuel Hale,	31,500

And about 80 [others, almost all political friends, as well as fellow "corporaters," in sums varying from $40 up to $4,500.

The residue of the bonds, after this sweeping distribution, were to "belong to WILLIAM A. BARSTOW," to be used as appropriated by himself and eight others named, to meet prior existing engagements of the Company. The *News* thinks this was "a straight forward transaction," and that Ex-Governor BARSTOW was bound to make the best bargain that he could out of the La Crosse Company. But considering the character of the "franchises" transferred by Gov. BARSTOW and his "corporators," and the manner in which the spoils plucked from the La Crosse Company, were divided up by BARSTOW and Company, we think that the public in general will look upon the transaction in a very different light. But more anon.

The New Party.

The *News* seems extremely anxious to get up a new party in opposition to the *bogus* Democracy, and still more solicitous that the *Sentinel* should join it. We ought to feel obliged to the *News*, for the interest which it manifests in our political welfare, and the efforts which it is making to organize a new party, expressly to accommodate us. We fear, however, that it is all "Love's labor lost," if not "much ado about nothing." We are unable to perceive any necessity for abandoning the Republican organization, even at the polite invitation of the *News*; and we have received no intimations, from any other quarter, that a new party has been, or is to be formed, to take the place of the Republican, or that the aid of the *Sentinel* is needed to ensure its success. We want no change in parties, and least of all such change as the *News* proposes.

Harbors and Rivers.

The following proceedings were had in the U. S. Senate on the 1st instant, from which we infer that the chances for obtaining appropriations for the improvements of Western Harbors and Rivers are mighty slim. We suppose if Wisconsin was a slave-holding State, or voted good and strong for the iniquities of the slave interests, all her harbors would receive liberal appropriations, without any trouble. But William H. Seward, who takes the lead in support of Western interests, is not of that peculiar stripe; hence all such propositions are choked off.

Mr. Seward made a powerful appeal for the Western interests.—*Sheboygan Journal*, (*Dem.*)

The *Journal* is right. Our Sectional Administration knows no West. Its sympathies are all with the South. Mr. BUCHANAN, his Cabinet, and the Southern party leaders, are ready to lavish millions, in extending the area of Slavery, but it will not give a cent for the protection of Western Commerce. Utah, Florida, Kansas, and the increase of the Army and Navy, will swell the Federal Expenditures, for this year, to something like *seventy-five millions of dollars*; and, of all this vast sum, there is not one dime for our Western Rivers and Lake Harbors. And yet the aggregate Annual Value of our Lake Commerce now exceeds *three hundred millions!*

A DAILY AT MANITOWOC.—The enterprising publishers of the Manitowoc *Tribune*, Messrs. S. W. SMITH and J. N. STONE, have started a daily paper. It is a neat looking, and well filled sheet, which the people of Manitowoc, if they understand their true interests, will take care to keep alive. It is the best and cheapest way of letting the world know that they have got a *live* town.

GOLD PRODUCT OF CALIFORNIA AND AUSTRALIA.—The product of California up to the 1st of January, 1858, was $538,712,467, and of Australia $269,597,760. This gives a total of over $600,000,000 added to the gold in circulation in the last seven years.

The product of 1857, in California, was $78,-976,507, a slight increase of about $100,000 over 1856, but less by $6,300,000 than the most productive year, 1853.

The product of Australia, 1857, was $46,673,-820, a falling off from 1856, which was the most productive year, of $3,200,000.

LARGE FLOUR MILL.—A new flour mill at Richmond, Virginia, which has been nearly four years under construction, will be finished and placed in operation in a few months, at a cost of about $150,000. The mill is twelve stories in height, fronts ninety-six feet on Canal street, and is one hundred and sixty-five feet deep. The height of the front wall is one hundred and twenty-one feet to the top course of bricks. Including the observatory, the total height is one hundred and thirty-five feet. The rear wall, embracing a part of the granite foundation, is one hundred and forty-seven feet high. Each floor contains about 11,560 superficial feet.

END OF A BIG SPECULATION.—The estate of the celebrated Breckinridge Coal Co., is to be sold on the 28th of June, to pay a mortgage of $850,000. This is the close of affairs of the company, whose stock and property was valued a few years ago at four or five millions.

THE LAST OF FORT SNELLING.—Capt. A. W. Reynolds, of the U. S. Army, passed through Chicago, on Monday, *en route* for Fort Snelling, for the purpose of recovering the Government property, and breaking up that post.

WHERE WILL IT END?—For many years we have been shipping stone to England, to be there converted into cups and saucers, and into plates, from which to eat our own buckwheat cakes. The system is now, however, as we believe likely to be extended—arrangements being on foot for the exportation of iron ore, to be smelted by means of English coal, and then returned to us in the form of pigs. Progressing thus backward, as we do, may we not hope to live to see the day when our wheat shall be required to cross the ocean, to be returned to us in the form of flour?—*Philadelphia U. S. Gaz.*

The Calamity at Roscoe.

We copied yesterday, from the Chicago *Journal*, a brief account of the fearful calamity at Roscoe, Illinois, by which the entire family,—wife and eight children—of the Rev. Mr. ILSLEY, were suddenly swept into eternity. We have since received an extra from the Rockton *Gazette*, from which we copy the details of this appalling disaster:

Never has it been our lot to chronicle to the world an event so distressing as that which occurred in the town of Roscoe, Ill., on Thursday night, June 3, 1858. For days and even weeks the great and frequent rains had swollen the streams and caused various interruptions to the travel on roads and railroads in this vicinity; but the damages were generally slight, and easily repaired. On the afternoon and evening above named, the rain poured down in torrents, and caused the streams already full, to overflow their banks and produce much greater disasters to bridges and other property than had been before witnessed since the great freshet in 1851. By this sudden rise the stream running through the village of Roscoe into Rock river became so swollen as not to find room to pass through the culvert of the railroad near the village; and being thus partially obstructed, its waters accumulated in a large body, east of the railroad embankment until their force became so great as to sweep away the culvert and about 150 feet of the Railroad embankment, thence rushing with tremendous volume and power down through the village to the river, and carrying away in its furious march three dwelling houses, one store and two stables, together with their respective contents.

Fortunately only one of these dwellings was at that time the residence of human beings; but that one contained ten persons—the entire family of Rev. Horatio Ilsley, formerly of Monson, Mo., but more recently of Dixon, Ill. Mr. I. had recently removed to R., and taken charge of the Congregational Church in that town under circumstances of much promise. His eldest son who had been absent ten months in Milwaukee, had just returned home on a visit, and now for the first time in ten months were his family all at home.

At about nine o'clock the waters near his house began to assume a threatening aspect, and excited the fears of the father for the safety of his family; but after consulting neighbors who had often seen his dwelling apparently in greater peril by the waters, and who assured him there was no danger, he decided to remain in the house.

In this condition the family remained during the evening. At about 11 o'clock the divine blessing was invoked and the children retired leaving their anxious and devoted parents to watch the progress of the threatening waters which then had begun to abate, when suddenly the waters hitherto held in check by the Railroad embankment, of which all were ignorant, now having born away the sandy barrier, came rushing against the house and began to fill the lower rooms.

At this instant the father called the eldest son from the chamber, hoping, if possible, to find a way of escape for his family; but so rapid was the influx of water below that all were compelled to hasten to the chamber, where the father raised the window and called aloud for assistance. At this moment his attention was arrested by the anxious cry of "*father*," from his children. On turning to go to them, he felt the floor sinking beneath him, and saw the walls of the house, which were built of brick, falling before him, amid the shrieks of his wife and children. All were now at the mercy of the relentless torrent, and nine of that devoted household, the mother and eight children, perished together.

He now found himself struggling and choking under the rushing waters, and raising his heart in prayer, committed himself, and the souls of his family, to his Saviour, expecting in a few moments, to be with them in eternity; but providentially some floating substance passed beneath him, that raised his head above the water, to which he clung with the tenacity of a dying man. In this position he was carried by the rapid current about half a mile towards the river, without receiving any serious injury.

At this point he came in contact with a limb of a tree standing in the water which he seized and by which he was enabled to climb to a position above the water. His first effort now was, by vomiting to relieve his lungs and stomach, which were nearly filled with water. Here he remained about two hours in the awful consciousness of his own condition, and that of his family expecting every moment that the frail tree to which he was clinging would yield to the terrible force of the rushing waters and consign him to the fate of his dear family. The darkness concealed his position, but his cries for assistance were heard, and brought many persons to the shores of the widened stream, who sought in vain to reach him, till at length a tall, athletic man who could swim, finding a point from which he thought he could reach him, laid aside his garments and took a lantern in one hand and the end of a rope in the other that was held by others on the shore, and succeeded in going to the tree. Now committing the lantern to the hand of the almost exhausted man, he took him carefully upon his shoulders and bore him safely to the shore.

During the night every possible effort was made by the citizens to find the lost ones, but no traces of them were discovered until morning, when the bodies of four of the children, the oldest son and daughter, Horatio and Charlotte; and Susan and the infant son Charles Merrill, were found among and near the ruins of the building. Susan was lodged near the house enveloped in a flannel blanket. The infant was in a bed. The two latter exhibited no marks of external injury, but the oldest son and daughter were badly bruised and mangled, having been undoubtedly killed by the falling building.

The following is the melancholy list of the victims of this most distressing catastrophe;

SUSAN MERRILL, wife of HORATIO ILSLEY, aged 43 years.

HORATIO THAYER ILSLEY, aged 17 years.

CHARLOTTE ELIZABETH ILSLEY, aged 15 years.

MAY ELLEN ILSLEY, aged 13 years.

ORRIN WOODFORD ILSLEY, aged 11 years.

EDWARD PAYSON ILSLEY, aged 9 years.

SUSAN CAROLINE ILSLEY, aged 7 years.

ANNIE LOUISE ILSLEY, aged 5 years.

CHARLES MERRILL ILSLEY, aged 6 months.

Notwithstanding the most diligent and persevering efforts, in which large numbers joined, to recover the bodies of the lost ones, only four had been found up to Sunday morning last. The funeral of those four took place on Sunday the 6th inst., at the village church in Roscoe, of which the afflicted father was pastor. The church was filled to its utmost capacity, and surrounded by a large concourse of sorrowing and sympathizing friends and neighbors, who could not gain admittance. The services, which were deeply affecting, were conducted by the Rev. Mr. HOLMES, of Belvidere, assisted by other clergymen of the vicinity.

Our contemporaries in the Rock River Valley will please publish a request, that if any of the missing bodies of the mother and her four children be found, immediate notice be given to the Postmaster at Roscoe, or to Mr. E. I. TINKHAM, at Chicago; that measures may be taken for their interment in the rural cemetery at Roscoe, by the side of those already recovered—so that in death they shall not be divided.

Second Annual Editorial Convention—To the Press of Wisconsin.

The second annual meeting of the "Wisconsin Editors' and Publishers' Association," will be held at Madison, Dane County, Wisconsin, on the 16th of June, 1858, as first announced, and as agreed upon at Portage last season.

Editors who have not received free passes over the different railroads to go and come, will write me at Horicon immediately, and they will be supplied.

THOMSON, at Hartford, on the La Crosse road, and the proprietors of the Walker House, Milwaukee, will entertain, those going by Milwaukee, free of charge.

A general attendance is earnestly wished for.

M. M. POMEROY,
Sec. Wis. Ed. & Pub. Association.

EPISCOPAL CONVENTION.—The annual convention of the Protestant Episcopal church in the diocese of Wisconsin, commences its session in Trinity Church, in this city, to-morrow at 10 o'clock A. M. Services are appointed at the church for this evening at half past seven o'clock, when the rite of confirmation will be administered by the Rt. Rev. Jackson Kemper, Bishop of the diocese.—*Janesville Gazette June 7th.*

OLD TIMES!—Yesterday was one of the old days in Janesville. Not less than nine thousand bushels of grain was purchased, of which between 6,000 and 7,000 was wheat. The derangement of the railroads had caused an accumulation of grain in the warehouses, and in the course of the day everything was full. This caused a decline in price, but the average for wheat during the day was 57½ cents; a good deal was sold at 59 cents—a handsome advance on last week's prices.—*Janesville Gazette, June 7.*

CHAPTER CLV.

AN ACT providing for the appointment of a Comptroller, and prescribing his duties.

The Governor is to nominate the Comptroller, to be confirmed by the Senate, to hold office for two years. The first Comptroller to have power to act, though appointed during the recess, but the name to be sent to the Senate for confirmation. The Comptroller to examine and pass upon all claims and accounts audited by the Secretary of State. If found properly verified, or proved, and authorized by law to be audited, to certify the fact upon the account.—All claims to be audited by the Secretary of State, as required by law, and his order auditing the same endorsed thereon, stating the act authorizing the claim and the power to audit it.—If the Secretary of State disallows any item, he shall write "disallowed" thereon. The Comptroller to countersign all warrants drawn upon the State Treasurer, and to keep a detailed account of all warrants countersigned. The Secretary of State and State Treasurer to furnish the Comptroller on the 5th of each month, a balance sheet of the various funds. The Comptroller's salary to be $2,000.

Published June 1st 1858.

CHAPTER CXXXVIII.

AN ACT to amend an act entitled "An act to amend chapter nineteen of the Revised Statutes, and to compile the school laws of Wisconsin," approved April 1st, 1854.

Amends Sec. 12 of Chap. 19, laws of 1854, so as to require all the legal voters of a district to be notified of special meetings, and authorizing them to transact all business as at annual meetings. So much of chapter 19, R. S., as relates to the assessment and collection of school district taxes, is hereby revived for the purpose of assessing and collecting any tax that may be voted at any special meeting. Increases the sum authorized to be voted in section 14, to $500. Gives three years term of office to the Director, Treasurer, and Clerk, but at the next election the Clerk to be chosen for one year, the Treasurer for two years, and the Director for three years. The Clerk to make his annual report to the Town Superintendent, between the 1st and 15th of July, dated 1st July, carried to the last day of June. Town Superintendents to report to the Clerk of Supervisors, between 15th and 25th of September, dated 15th of September. Clerk of Supervisors to report to State Superintendent, on or before October 10th.—State Superintendent to report to the Governor, on or before December 10th. Makes the town responsible for costs in suits brought by Superintendent, as in Sec. 94. Five thousand copies of the amended school laws to be distributed. Provides for forming union districts for high schools. Town Superintendents to sue Treasurers for mal-administration of the funds.

CHAPTER CXLV.

AN ACT to protect the people against corrupt and secret influence in matters of Legislation.

Makes it a misdemeanor, to be punished with imprisonment for from four months to a year, and a fine of from $100 to $1,000, to pay or take any money, or other valuable thing for aiding in procuring the passage or defeat of any measure before the Legislature, if the pay is dependent on the contingency of passage or defeat of the measure. Makes it also a misdemeanor, punished by imprisonment for from one month to a year, and a fine of from $50 to $100, for any person who has any interest in the passage or defeat of a measure before the Legislature, to converse with a member to influence him, without first stating whether he is "interested" or not in such passage or defeat.

Published June 3d, 1858.

CHAPTER CXVI.

AN ACT defining certain duties of the Bank Comptroller.

The Bank Comptroller is directed to refuse to issue circulating notes to any banking association, unless he shall have satisfactory evidence that it has not been, or is not to be organized for the purpose of issuing circulating notes merely, but was or is to be organized for the purpose of doing a banking business, by "discounting bills, notes, and other evidences of debt, by receiving deposits, by buying and selling gold and and silver bullion, foreign and inland bills of exchange, by loaning money on real and personal security, and by exercising such incidental powers as may be necessary to carry on such business," at the place where such bank purports to be located; and that the place where the business of such association is or is to be carried on, is an inhabited town, village or city, where the ordinary business of inhabited towns, villages or cities is transacted, and that said association has established and keeps open, during banking hours, an office of discount and deposit, for the transaction of such business, and for the redemption of their circulating notes.

FATAL ACCIDENT.—We learn that a distressing accident occurred on Wednesday afternoon, at Hamilton, which resulted in the death of a well-known citizen. Mr. Robert McAdams, the owner of the large distillery in the outskirts of the city, was in the act of placing some blocks under a large boiler, just put into the establishment, when the boiler rolled over, and Mr. McA. was caught underneath, in such a manner that his head *was literally crushed flat.* Death followed instantaneously. The deceased leaves a wife and five children.—*Cincinnati Gazette, June 4.*

MORE REPUDIATION.—We regret to find by a statement in the New York papers, that the city of Pittsburgh has repudiated its bonds. It would appear, by information from the same source, that "these bonds were issued and loaned in aid of certain railway lines, which failed before completion, and the city, on the preliminary pleadings, now undertakes to repudiate the obligation. The original pretext, on the failure of the Railroad Companies to meet the interest, was, that the taxing power of the City Corporation had been exhausted, and that additional legislation would at once be had to remedy this defect. No such legislation, however, was secured, and the present plea, we regret to find, is, that the bonds were made for a purpose entirely foreign to the objects for which said city was incorporated.

A Railroad Train at Sea.

Correspondence of the Cincinnati Gazette.

ON OHIO & M. RAILROAD, West of Vincennes, June 2.

On crossing the bridge of the Ohio & Mississippi Railroad, at Vincennes, the traveler westward witnesses a novel sight in railroading.—Before him is a lake [the Wabash Valley overflowed] over six miles wide, and longer than the eye can reach. Across this sea the train runs on a trestle work that sticks out just four inches above the top of the water. Nothing is seen on its broad surface save these two iron rails, around which the waters eddy and whirl, and dash madly against the slender frame, which seems to tremble under their force. All over the lake are whirling eddies, carrying big trees and drift, round and round and round. These soon make your head swim, and you feel that the trestle work is certainly moving; the bottom seems to be undermined and is moving, while the top is toppling over against the current, and you expect every moment to hear the splash of the whole train going down into the sea. But it don't go, and there is no danger, frightful as it looks. But now we come to a place that really seems fearful. We are in the middle of the lake. It is just twilight. Almost out of sight of land—nothing but a waste of waters on every side of that long, solitary railway train; we leave the straight line, and go curving southward like a snake's track. Why? Simply because the flood has carried the trestle work away from its straight course, and left it in a zig-zag line, [and half upset at that] some distance below where it originally stood.

So badly upset was this trestle work, that in some places the rail on one side was two feet lower than on the other, and it seemed as tho' it wanted only the weight of the train to throw it entirely down. The lower rail had, however, been taken up, and timbers placed on that side to bring it up as high, and in some cases a little higher than the other so as to throw most of the weight on the upper side. It was also braced up and stayed as well as could be done in the present state of the flood.

On this half overturned, racked and tottlish looking trestle work, our train crept cautiously along. A railroad train out at sea, with iron enough about it to anchor it safely at the bottom, and creeping along on a shaky trestle work, that the engineer is afraid to jar for fear he may jar it down!

Workmen are busy now in bracing up and strengthening this part of the road, and before my letter reaches you it will no doubt be perfectly safe. The damage to the road by the flood is much greater than I had supposed, and the officers have had great difficulties to surmount, in making these repairs—one of which was that men could hardly be obtained to work in this lake for any price, because the Wabash overflow is regarded as "unhealthy water."

The novelty of going to sea in a railroad train is worth the ride from Cincinnati to St. Louis, and as the road is now so well repaired, that the trip can be made in perfect safety, I would advise those coming West to take this route in order to enjoy a sight that they may never have an opportunity of witnessing again.

EDMUND.

Murder of Citizens of Rock County in Kansas.

The following extract from a letter dated Leavenworth, May 29th, to A. B. Havens, Esq., of this city, gives an account of the murder of two young men who emigrated from this county to Kansas last fall:

"Amos Hall and Austin Hall, (the men who worked Col. Scribner's farm last year,) were shot by a party of robbers last week, in the southern part of the territory. There are numbers of armed bands roving around the Missouri and Kansas borders, robbing and murdering all they meet.—A few days since they 'cleaned out' a town 30 miles south of Lawrence, entirely. They belong to no party, but are outlaws who are recognized only as such."

The young men referred to were from Vermont, and resided in this county for a year or two, and worked Col. Scribner's farm in La Prairie. They were Free State men, without concealment, and doubtless have fallen victims, like many others, because they dared to avow their principles. The writer of the above knows the circumstances better than we do, and he doubtless is honest in the belief that these robbers belong to no party; but why, we ask, do they always kill Free State men?

The Messrs. Hall were well known to many persons in this community, and were esteemed by all their acquaintances as men of much worth. Their sad fate shows to what a desperate condition the miserable in Kansas has brought her people. Can vengeance long be delayed upon the miserable robbers who have bathed their plains in blood? A whole hecatomb of beastly pro-slavery, border ruffian Missourians would not suffice for the murder of two such men as Amos and Austin Hall.—*Janesville Gazette.*

Private and Confidential Medical Advice.
AT THE MILWAUKEE Venerial Hospital, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr. Barnes.
Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 19 Wisconsin Street.
READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.
YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Stricture, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.
Dr. B. makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

To Capitalists.
DESIROUS of making profitable investments in Real Estate, we would suggest, that we are empowered to dispose of several entire Estates, consisting of very choice City and County property, the European owners of which having made their selections at an early period, are hereby enabled and willing to sell at greatly reduced prices for cash or on short terms.
may20 CHARLES QUENTIN & Co.

CHARLES QUENTIN & CO., corner of East Water and Mason sts., Milwaukee, Wis., have for sale Real Estate in the City of Milwaukee, in large or small parcels. Building lots in every Ward of the city, of all sizes and prices, for business or residence, and on easy terms. Also small farms of from 5 to 20 acres, near the city, for gardening purposes. Also several thousand acres of the best farming lands in Wisconsin, in quantities to suit any demand.
mar1 CHARLES QUENTIN & CO.

Dwelling Lots in the First Ward.
WE HAVE CAUSED the acre lots 10 and 11, Block 196, in Rogers' Addition, to be subdivided into lots 40 feet wide and 185½ feet deep, which we now offer for sale at very reasonable prices and on easy terms. The lots are fronting on Franklin and Racine Streets, with a full view of the Lake and Harbor, and are among the most desirable locations for gentlemen's residences east of the river.

City Auction Room.
TWO Farmers, who were neighbors, had their crops destroyed; one of them came to condole with the other on their misfortune. "Ah!" cried he, "how unfortunate we have been, neighbor! do you know I have done nothing but fret ever since. But you seem to have a fine, healthy crop coming up already. What is this?" "This," cried the other farmer, "Why this is what I sowed immediately after my loss!" "What? coming up already?" cried the fretter. "Yes; while you was fretting I was working." "What! don't you fret when you have a loss?" "Yes; but I always put it off until after I have repaired the mischief." "Why, then you have no need to fret at all." "True," replied the industrious farmer, "and that is the very reason."
Well, it is no use to be fretting about hard times, it will come all right. Do not be trying to pick quarrels with your neighbor, because he is industrious and succeeds in his efforts, but go to work and do something, and you are sure of success. Save all you can and get yourself a City Lot, and get a neat little cottage put up. All this can be done if one is only determined to do it. The time we consume in idleness, fretting, and finding fault with our neighbors, and friends, you can make money enough to purchase a City Lot and have a comfortable home for your family. Come to the City Land Office, we will sell you a lot so cheap, in Judge Satre's Addition, that the poorest man or woman can pay for it. Now is the time to purchase property. And for cheap Goods for your family you can get them at the City Auction Room. I am now opening another stock of Dry Goods of some poor, unfortunate Merchant that has failed. There are Goods of every kind. Any one who wants a Bonnet is requested to call at my store and get one for TEN CENTS, if they cannot pay that I will make them a present of it.
Well, I can say no more at present, except, this morning, at 10 o'clock, I sell 100 Kegs of Wet Nails, as good as ever got wet on account of the rise of the River. All sizes. jr2 CALEB WALL.

City Auction Room.
TO the Public in general. I am now opening another Stock of Dry Goods of some Broken Merchant, (poor fellow, I pity him,) which is, and has been, well selected. Many of them are Staple Goods; many, and the most of them, are Fancy Goods, which every family want from day to day. All the said goods I will have open in a few days, and will sell them to all our citizens at half price. Ladies will please call and see the goods and see if there is not something they want. Peter Klemb and Otto Hoyer will wait upon you with all the patience of Job. I will occasionally wait on you, but I must confess, like an honest man, that I have no patience in selling goods at retail. The Goods are all beautiful and good, and every family wants them, and they can get them at half price.
ml CALEB WALL.

City Auction Room.
I HAVE in my charge Five Hundred Acres of choicest School Land, which the owner wants to exchange for Household Furniture. The land has all been well selected, and is valued by those who are well acquainted with it, at five dollars per acre. Some of the land is near a very large saw mill. The party would like very much to purchase all the furniture of some one who is giving up housekeeping. It is a good investment for some one who is giving up housekeeping. School Lands are going to be more valuable than ever, and are now worth holding. Any one wishing to make the exchange, can call at my Auction Room. The party would have no objection to take New Furniture, provided it can be had at a fair price.

G. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.
THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.
The Ohio Catawba Brandy, not only equals but excels the best imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.
The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for
Dyspepsia, Flatulency, Cramp, Colic, Languor, Low Spirits, General Debility, &c.

Board of Visitors at West Point.

A drill of the first and second classes, as Dragoons, came of at 2 o'clock, last Tuesday.

At 3 a salute of fifteen guns was fired by the Cadets from six peices, in compliment to the Board.

At 5 came the Review; Major Delafield, accompanied by several of the Academic staff, proceeded to an inspection of the buildings; the Cadets, meanwhile, being formed by their respective officers. The Dragoon arm was represented by the soldiers stationed at the post, as was the Light Battery (4 guns,) excepting that the latter was mainly officered by Cadets, who displayed not a little equestrian skill in the management of their spirited animals.

The band struck up a chorus from Lucretia Borgia, and cadets, Light Battery, a squad of Sappers and Miners, and the Dragoons marched to the parade ground. The line was formed under Colonel Hardee. Major, Delafield, arm in arm with Governor Davis, of Indiana, President of the Board, followed by the Board and staff, went through with the standing review. Next came a marching review, at common time; presently, another, at quick time, and then a third at double-quick—the latter constituting the prominent feature of the day's entertainment—It is popularly known at the Point as "the Shanghai drill"—being done at a trot throughout. It is an adaption from that of the French *Chasseurs de Vincennes*, and has been prepared for our service by Colonel Hardee. In bringing it to perfection in the French *Ecole Polytechnique*, the cadets were required to make all their movements at this trotting pace, whether the distance was five rods or as many miles. By dint of constant practice, the muscles became so inured to it that in time they were, without unusual fatigue, enabled to run out from Paris ten miles without halt, drill there an hour, and then run back at the same gait. This is the drill our cadets are now taught. After the review at quick time, the band played "Pop goes the Weasel," and "pop" away went the cadets at a jolly pace, their step as perfect, their lines as straight, their wheeling as faultless, their salute as graceful, as with common time, the light battery and dragoon following at a full trot.

It was a beautiful spectacle. It is scarcely possible to imagine a military display more faultless in every part than this. The cadets coming from every Congressional district of the country, each possessing qualities and capabilities upon the development of which is mainly to depend the military reputation, honor—perhaps the safety of the country, are here receiving the first lessons in that stern art which henceforth is to be the practical work of their lives. Two hundred and twenty-five were to-day doing the rough duty of the common soldier, and each upon his good behavior. The present graduating class numbers twenty-seven; it entered with one hundred and ten. Each year it has to undergo a weeding out of the chaff from the wheat, and those who finally get through are pretty sure to prove worthy the honor. The cadet upon whom this year is to be conferred the first honor is Wm. C. Paine, of Massachusetts—a tall, finely proportioned, graceful young gentleman, with a fine head, and a face wearing a grave and thoughtful expression, a note-worthy face that could scarcely fail to arrest attention.

The Bay State frequently carries off these honors. Last year, the first man was Mr. Palfrey, and in '56, Mr. Comstock, both Massachusetts boys, Mr. Paine has ranked first in the class from the date of his entering the Academy.—*Post.*

Laws of Wisconsin.

AN ACT to protect the people against corrupt and secret influence in matters of legislation.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SEC. 1. That no person shall, directly or indirectly, offer or agree to give any money or other valuable thing, or security for any money or other valuable thing, to any person for the service of such person, or of any other person, in aiding or advocating or procuring the passage or defeat of any measure before either house of the Legislature, to be paid or delivered on the contingency of the passage or the defeat of any measure before either house of the Legislature; and that no person shall agree to accept or receive, or shall accept or receive, any money or other valuable thing for aiding or advocating or procuring the passage or defeat of any measure before either house of the Legislature of the State; and that every bargain, contract, or security for any such compensation on any such contingency, and all shifts and contrivances to cover or conceal such bargain, are hereby declared null and void; and the parties to any such bargain, contract, agreement, or understanding, as well the party to pay as the party to receive the money or other valuable thing, or security therefor, on any contingency as is above indicated, are hereby declared guilty of a misdemeanor, and on conviction thereof before any circuit court of this State, shall suffer imprisonment in the common jail in the county where such person is convicted, or in some other county in the State, as the judge shall direct, for not less than four months nor more than a year, and be subject to a fine of not less than one hundred dollars nor more than one thousand dollars.

SEC. 2. That no person having *any interest in the passage of any measure* before either house of the Legislature, and no agent or person acting for or representing any other person as agent or attorney in law, or in fact, for procuring, aiding, or advocating the passage or defeat of any measure before either house of the Legislature, or before any committe of either house, shall approach, converse with, or explain to, or in any manner attempt to influence any member of the Legislature relative to such measure, without first distinctly disclosing to such member whether he is interested personally in his own right or as agent for any other person in the passage or defeat of such measure; and any person who shall violate the provisions of this section is hereby declared guilty of a misdemeanor, and on conviction thereof before any circuit court of this State, shall be punished by imprisonment not less than one month nor more than one year, and by fine of not less than fifty dollars nor more than five hundred dollars.

SEC. 3. This act shall take effect and be in force from and after its passage and publication.

MEDICAL.

AYER'S
CHERRY PECTORAL!
FOR THE RAPID CURE OF
Coughs, Colds and Hoarseness.

BRIMFIELD, Mass., Dec. 20th, 1855.
Dr. J. C. AYER—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your *Pectoral* myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.
SPRINGFIELD, Miss., Feb. 7, 1856.
BROTHER AYER:—I will cheerfully certify your *Pectoral* is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., Monterey, Ia., writes 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your *Pectoral* by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.
WEST MANCHESTER, PA., Feb. 4, 1856.
SIR:—Your *Cherry Pectoral* is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.
HENRY L. PARKS, Merchant.

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.
Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the *Cherry Pectoral* affords relief and comfort.

Consumptives do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

ONE DOLLAR
WILL BUY
SANFORD'S LIVER INVIGORATOR!

ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, namely DR. SANFORD'S INVIGORATOR, or LIVER REMEDY that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels, to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums. Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a deranged Liver is cured when the Liver is excited to action.

JAUNDICE is caused by the improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume its original color.

COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.

For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a *family medicine* generally, all who use it speak in the highest terms.

DR. SANFORD'S INVIGORATOR came to us recommended to us a cure for Liver Complaints, and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians in its favor induced us to try it, and now convictions is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if *Liver Complaint* or *Dyspepsia* trouble you, do not fail to try this the greatest remedy in the world.—*State Fact.*

We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as DR. SANFORD'S INVIGORATOR; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think we are doing a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become so useful in our family that we will not be without it.—*Jacksonville, Ala. Republican.*

TO THE AFFLICTED.
DR. TILTON, having returned from his Southern tour, has taken rooms at the Massasoit House, Chicago, where he will now remain permanently. Those who suffer from Consumption, Indigestion, Nervous Debility or Weakness, will do well to call on him and have his advice. His
GREAT EAST INDIA REMEDIES,
Which he discovered in Calcutta after many years of research and labor, have become so thoroughly known and appreciated, than an attempt has been made by a few avaricious parties, with the expectations of gain, here and elsewhere, to counterfeit it; therefore, Dr. Tilton cautions the public not to buy this worthless drug as the genuine, no matter how represented, as no one but himself in the United States has possession of the original receipt. Dr. Tilton may be consulted at Room B, Massasoit House, Chicago, where he last year succeeded in successfully curing hundreds of terrible cases of Consumption, Nervous Debility and Indigestion, Asthmas, Bronchitis, Coughs and Colds. The Cannabis Indica and Lung Balsam, are the greatest blessings of the age. Give him a call, or send for a bottle of medicine which will cost you two dollars. Address,
DR. TILTON,
Box 1109, Chicago, Ill.
N. B.—I have not, nor never had, any connexion whatever with a person calling himself Dr. Gilbert, on State Street, Chicago. I have no agent or successor here, or elsewhere. ap28g482d1mJJG

CITY LOTS. LOTS. LOTS. LOTS. LOTS. PALMER & CO'S Addition. No. 21. One mile and a half from the Spring Street Bridge.	We have laid off the balance of our original purchase on Spring street into lots, and now offer them on the same terms as heretofore, viz: *One each hundred dollars of purchase money five dollars in advance, and three dollars per month thereafter until paid WITHOUT INTEREST.* The lots are beautifully situated on high ground in a healthful locality, and embraces some of the finest views about the city. They will bear examination.

The very low price at which they will be sold, together with the terms, commend them to the attention of all classes who desire a home and exemption from rents.—Young men, mechanics and laboring men, and tradesmen of small means have here an opportunity to invest that is within their reach. We have an agent on the property every day, after 2 P. M., to show the lots.

GRAIN CLEANER & SEPARATOR
HORTON'S PATENT
G. B. BINGHAM & BRO.,
Sole Manufacturers in Wisconsin.
THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder, so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, Florida st., Milwaukee, Wis.

IMPORTANT TO THE PUBLIC.
THE SUBSCRIBER would respectfully solicit the attention of the people of this community to a new Elastic
Roofing Compound,
Patented March 3d, 1857, by C. R. MILKS, that is what it purports to be, viz:
FIRE AND WATER PROOF
ROOFING,
For proof of which he refers to a long and respectable list of certificates, a few of which are given below, and plenty of others to be seen at the office of the subscriber. Also would refer to men who have tested it in more than one hundred of the principal cities and towns in New York and Massachusetts. The patentee of the above Roofing is acquainted with the ingredients used, making, application, &c., of every Patent Roofing in the United States, and from

Newburgh, April 19th, 1858.
St. John B. Sanborn, Esq.,
Dear Sir:—In reply to your request, asking my opinion with regard to the Composition Roofing patented by C. R. Milks, I have to state that I have examined the matter carefully, having watched its application in various places and in some very difficult ones, which it has been impossible to stop the leakage of with any other known compound. I have no hesitation in pronouncing, so far as its Water Proof qualities are concerned, essentially the thing, and as to its Fire Proof qualities, having examined the roofs of Homer Ramsdell, Esq., I find the roof boards completely charred through, and at the same time the Composition remains entirely untouched by the fire, although constantly covered with falling brands and cinders. I therefore consider it essentially both a Fire and Water Proof substance, and having had considerable experience with other Compositions for Roofing purposes, (particularly with West's patent,) I have no hesitation in pronouncing it the very best thing extant, both as a Fire and Water Proof Composition for Roofing purposes. H. F. ADAMS.

Having felt an interest in the subject of Mastic Roofing, and knowing that the preparations hitherto used have failed to stand the winters of this climate, we were induced in September last to apply, as an experiment, some of C. R. Milks' Mastic Roofing on a Tin roof adjoining our office, (said roof being much exposed to the action of the weather, and also the rain and snow from another roof,) we find at this date said roofing in the most perfect order, and believe the great question of how does it stand the "winter" is settled, and that C. R. Milks' Roofing must prevail over all other Mastic Roofing in use. SCHUYLER & PARKER,

COMMERCIAL & FINANCIAL.

OFFICE OF THE DAILY SENTINEL, Tuesday Evening, June 8, 1858.

MONEY MATTERS.—Unlike the produce market, the money market has been quiet and unchanged. We have to note a continued closeness in both currency and exchange. Business generally not over and above brisk, although more lively than at the close of last week. Discount rates at Bank, 10 per cent. Exchange on New York scarce at 1 per cent. premium. Gold 1 per cent. Note brokers operating with care at 1½ to 2½ per cent per month.

OUR MARKETS.

Received by M. & M. R. R.—9,075 bus wheat, 596 bbls flour, 885 bus corn, 1,190 lbs hides, 21,970 lbs sundries, 1 car stone.

By La Crosse & M. R. R., June 7th.—3,244 bus wheat, 1,517 bus oats, 44 bus barley, 163 bus potatoes, 183 bbls flour, 95 sacks do, 28 bbls eggs, 18 tons pig iron, 3,530 lbs hides, 8,545 lbs sundries.

By Mil. & Wat. R. R.—3,791 bus wheat, 186 bbls flour, 309 bus oats, 7 bbls eggs, 1,310 lbs butter, 4,100 lbs sundries.

By Mil. & Hor. R. R.—2,121 bus wheat, 41 bus oats, 791 bus barley, 4 bbls eggs.

There has been quite an excitement in the wheat market to-day, and the most active competition that we have noticed in the market this season. Unusually high as was the market yesterday, to-day prices of wheat were run up from two to three cents higher, without any apparent reason, save the anticipation of a rise in the New York and European markets. Some attribute the recent improvement in the New York market to the late reduction in Ocean freights, which, together with the reduced canal tolls, stimulated somewhat western dealers. Others say that the supposed damage to the growing crop, by the late heavy rains, more particularly influences the market. However, it is not at all likely that the present prices in our market will be long maintained, at this time. There does not appear to be any real ground for so sudden and so much of an advance. We notice that the telegraph reports Milwaukee club to lower in the New York market. We quote:

WHEAT—In brisk demand at 71a73c for extra club, and 63a70 for No. 1. A few lots of very choice club were taken by millers at an advance of 1c on our outside figures, but the principal sales of club were at 72c.—Among the sales yesterday, we note 5,500 bus No. 1 f. o. b., at 69c, and 5,000 bus extra club at 72c; 14,000 bus on private terms; 752 bags club at 72c, to store, and a number of other sales, both to store and mills, at 72a73c. Sales of No. 1 at 69, 70 and 71c, and of common at 47½a 65c. Winter wheat not so active, though in fair request at 72a7?c for red, and 75a97 for white. One sale of 150 bags extra white at 67½c.

FLOUR—Market quiet, and holders more firm, and not over anxious to operate in this market. Our evening cotemporaries note sales of 600 bbls 'Empire Mills' (Beaver Dam) Spring extra, on board, at $3,40, which is the only important sale of flour which we heard of yesterday.

FREIGHTS—But few vessels in port, and little grain, as yet, in store for shipment, and therefore little or nothing doing in the line of freights. Rates nominally the same.

OATS—Continue in brisk demand, both to ship and to supply home consumption, and we note an advance, to-day, of 1 to 2c, under the influence of an increased demand. Some very nice lots were taken at 29c. The range is 27a29c.

RYE—Not so active, quoted at 53c.

BARLEY—Unchanged—30a31c.

CORN—Firm, at 40a43c for good shelled lots.

POTATOES—Plenty at 25c.

EGGS—Are not so plenty, and in better demand at 8c by the bbl.

HIDES—In good request at 5a6 for green, and 10a13c for dry.

NEW YORK MARKET.

New York, June 8.

FLOUR—Market better, with moderate demand; sales 17,000 bbls at 3 90a3 95 for super state; 4 05a4 15 extra do; 3 90a4 00 super western; 4 05a4 60 for common to medium extra do. Canadian flour steady; sales 500 bbls at 4 15a5 20 for extra. Rye flour quiet; sales took place at 3a3 87.

WHEAT—Market scarcely so buoyant; sales 15 000 bus at 84½a87 for Chicago spring; 90a91 for Milwaukee club; 1 1? for white [illegible].

RYE—Dull at 65a66.

CORN—Steady; sales 25,000 bus at 60a72½ for mixed western; 73 yellow southern.

OATS—Firmer; sales at 44a45 for state; 47a47 for western.

CUT MEATS—Drooping.

PORK—Heavy; sales 300 bbls at 17 37a17 35 for mess; 14a14 25 for prime.

BEEF—Quiet, and declining.

LARD—Steady; sales 100 bbls at 11½a11¾.

BUTTER—Steady; sales at 12a18 for Ohio; 15a20 for State.

CHEESE—Dull at 5a8.

WHISKEY—Sales 250 bbls at 21½a21¾.

MONEY—Plenty and easy at 3a5 per cent. on call.

STERLING EXCHANGE—Continues dull and heavy at 109a 109¾.

COTTON MARKET—Unchanged; sales 1700 bales at 11½a 11¾ for middling upland.

STOCKS—C & R I 73 cash, M S & N I 21¾, Mo 6s 84½, La C & M 6½, do Land Grants 31½, G & C 85½, Erie 11½, N Y C 84½, stock preferred 43½, Harlem 11¼, Erie bonds ?1 87½, Hudson 27½, D & H 100¼, P M Co 79¾, Mich S per cent. bond. 94½, Hudson 3d bonds 66½, Indiana State 5s 60.

BUFFALO MARKET.

Buffalo, June 8.

FLOUR—Quiet and steady; sales 800 bbls at 4 25a4 50 for extra to double extra.

WHEAT—Scarce and firmer; sales 11,000 bus Chicago spring at 75 a??; 4000 bus white Michigan and Canadian at 95a1 0?.

CORN—Firmer; sales 18,000 bus Ill at 62½.

OATS—Firmer; sales at 33a40.

WHISKEY—Firm; sales 200 bbls at 19a19½.

CANAL FREIGHTS—Wheat to N. Y. 10.

LAKE IMPORTS—Yesterday, 7,000 bbls flour, 125,000 bu wheat, 40,000 bus oats, 33,000 bus corn.

CANAL EXPORTS—600 bbls flour, 62,000 bus wheat, 6,000 bus corn, 24 000 bus oats.

CHICAGO MARKET.

Chicago, June 8.

FLOUR—The market is firm but quiet. Choice brands of spring extras bring $3 50.

WHEAT—Firm at 7?a71c. The demand is active and there are many buyers in the market.

CORN—But little choice offered and the market is very firm. River corn brings 54a55 afloat. Railroad brings 40c for No 1 to store.

OATS—Firm and active at 31a34c.

FREIGHTS—Dull and lower. We quote to Buffalo at 8½ for wheat.

WOOL—Common at 16a27; full blood 30c

MARINE INTELLIGENCE

DISMASTED.—The Brig Young America was dismasted off Presque Isle, in the gale of last Wednesday. She lost her main mast, fore top mast and jib boom. Nothing was left standing but her fore mast. She was bound for Chicago.

TO MARINERS.—Captain Smith gives notice that the light at Thunder Bay Island will be changed on the evening of July 1st proximo, from fixed to fixed varied by flashes. The illuminating apparatus is catadioptric of the fourth order system of Fresnel. The flashes will occur at intervals of two minutes. The focal plane is 58 feet above the mean water line, and the light should be seen from the deck of a vessel, 15 feet above water, in ordinary states of the atmosphere, at a distance of 12 nautical miles.—*Detroit Adv.*

REACHED SALT WATER.—Capt. Pierce received a dispatch, yesterday, stating that the vanguard of the Detroit & Liverpool fleet—the Chieftain, Black Hawk and J. H. Harmon, would be ready to leave Montreal Monday night. They must therefore have left Quebec Wednesday night, and are now in salt water. May prosperous gales attend them!—*Detroit Tribune.*

Would'nt they be likely to get along better without any "gales" at all.

PITTSBURG, FT. WAYNE & CHICAGO RAILROAD!

THIS New and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between

CHICAGO AND THE EAST.

FARE AS LOW AS ANY OTHER ROUTE.

☞ Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.

Trains leave Depot on VAN BUREN ST., daily as follows

6:00 A. M. 8.45 P. M.

With but one change of cars to Pittsburgh.

CHECKING BAGGAGE THROUGH

To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

Tickets for sale at all the principal ticket offices at the West, and at the Company's Office, No. 50 Dearborn St., opposite the Tremont House, Chicago, and at the office of the Lake Shore Railroad, Milwaukee, by A. G. Leland.

MEDICAL.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR, FROM The worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimple on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity taken.

ROXBURY, MASS.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

Proposals for Printing the Revised Statutes.

SEALED PROPOSALS are invited for furnishing, in accordance with "An Act relating to the publication of the "Revised Statutes," approved May 17th, 1858, ten thousand copies of the (one) volume of Revised Statutes, Compiled Laws, and other matter in said law directed to be published; the same to be delivered to the Superintendent of Public Property, at Madison, within four months of the time of making the contract. A competent person will be appointed to attend, personally, to the printing of said Statutes, read the proof, append the marginal notes, arrange the chapters, and prepare the Index. He will be empowered to supervise the work throughout, and reject any portion not done in accordance with the terms of the contract. All acts of a general nature, passed at the session of 1858, are required to be published in the volume, together with such other matter as is published with the present volume of Revised Statutes.

The volume is required to be a "large octavo, the text on a new small pica type, the notes in minion, and printed on a good quality of book paper, bound in good, substantial law book style, to be equal in quality, and of material and workmanship to the Revised Statutes of Maine, published in 1857, which is adopted and placed in the Executive Office as a standard.

The copyright of the said volume, as against individuals, is secured to the contractor, the retail price of the book to be not more than $4,00. The contractor to give bonds to the amount of $20,000, with two sureties who shall be residents of this State, and each justify to that amount, for the performance of the contract.

Preference will be given to a bid from this State, all other things being equal.

Proposals must be made for furnishing the work at a certain sum per volume of 1,000 pages, and a certain amount for each additional hundred pages.

Proposals will guarantee the time within which the books will be delivered, and the shortest time and the lowest price will be considered in declaring the award.

Proposals will be received until 3 P. M. of Tuesday, June 15th, 1858, at which time they will be opened, and the award made. They should be sealed and marked, "Proposals for printing the Revised Statutes," and enclosed in an envelope addressed to the "Executive Office, Madison, Wis."

It is not probable that the payment can be made for the work before the middle of February next.

The law authorizing the publication is published herewith.

Madison, May 21st, 1858.
ALEX. W. RANDALL, Governor,
SAM'L D. HASTINGS, State Treas'r.
GABRIEL BOUCK, Att'y General.

[Published May 18th, 1858.]

CHAPTER CXXXIV.

AN ACT relating to the publication of the Revised Statutes.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SECTION 1. The printing of the Revised Statutes shall be done under the general supervision of one of the commissioners to revise the laws, "or some competent person, to be selected by the Governor, who shall be denominated, Superintendent of the printing of the Revised Statutes," and he shall receive such compensation as the Governor may deem just and proper; Provided, that the per diem shall not be more than six dollars per day. The said Superintendent shall attend personally to the printing of said Statutes, and shall read the proof, append the marginal notes, on all the pages, indicating the subject matter of each section respectively, as are required, arrange the chapters, and prepare a proper index for the same. He shall compare the work, as it progresses, with the specimen or standard volume hereinafter provided for, and shall have full power, with the consent of the Governor, to stop the work at any time, if in his opinion it is not being done in accordance with the contract, and not allow it to proceed until he is satisfied that the execution of the work is, in every respect, equal to the standard, and is such as its importance demands. All acts of a general nature, passed at the present session of the Legislature shall be included in said volume of the Revised Statutes, and it shall be the duty of the said Superintendent, and he is hereby authorized to compile and properly arrange said acts for publication therein. And the Secretary of State, on the completion of the publication of the Revised Statutes, is hereby authorized to draw a warrant on the State Treasury for the amount of compensation of the said Superintendent, and there is hereby appropriated out of the State Treasury, a sum sufficient to meet the expenses, as provided in this section.

SEC. 2. The Revised Statutes shall be published in one volume, large octavo, the text on new small pica type, the notes in minion, and printed on good quality of book paper, bound in good substantial law book style; and shall be equal in quality and of material and workmanship to a specimen volume which shall be selected by the Governor, and placed in the Executive Office as a standard, and by which the work shall be executed; and said volume of Statutes shall contain such matter besides the general and permanent laws of the State, and such marginal notes and index, as shall be prescribed by law. And it shall be the duty of the person having the contract for furnishing the said Statutes, to cause to be printed on the cover under the title, and on the back of each volume, the words State Property.

SEC. 3. The copyright of the Revised Statutes is hereby secured to such person or persons as shall become the contractor or contractors to furnish the same, Provided, such person or persons shall, within twenty days after he or they shall be notified of the acceptance of his or their proposition for furnishing said Statutes, execute to the Governor of this State a bond, in the penal sum of twenty thousand dollars with two or more sureties, each of whom shall be a resident of this State, and shall each justify in the amount of the bond to be given, to be approved by the Governor, conditioned for the faithful performance of the work, in accordance with the standard on deposit in the Executive Office, and for the delivery of the said volumes, as hereinafter provided. Provided further, that the retail price shall not exceed four dollars per volume. Provided further, that such copy right shall only hold good as against individuals.

SEC. 4. The Governor, Attorney General and State Treasurer are hereby required, immediately after the passage of this act, to advertise, in at least six newspapers in this State, giving not less than ten days notice, for sealed proposals for delivering to the Superintendent of Public Property, ten thousand copies of the said Revised Statutes in style as provided for in the second section of this act; and at the time fixed, the Governor, Attorney General and State Treasurer, shall proceed to open such proposals, and award the work to the person or persons whose proposition shall be by them considered the lowest and best; and the Governor shall enter into a contract with such person or persons for performing the work in accordance with the terms proposed, and in accordance with this act. Provided, that the preference shall be given to a bid made by a person or persons proposing to do the work in this State, the terms and conditions being equal.

SEC. 5. The said revised statutes shall be delivered at the seat of government of this state, within four months after the contract is entered into, and proposals for furnishing such statutes, shall guarantee the time within which it shall be completed, and the Governor, the Attorney General and State Treasurer, shall consider shortest time, as well as the lowest price in awarding the contract; and the Governor of this State is hereby authorized to receive and accept said statutes so delivered, and to deliver to said contractor a receipt for the same, and to cancel his bond.

SEC. 6. Upon the completion and delivery of the entire ten thousand copies as before provided, upon the presentation of the receipt of the Superintendent of Public Property, that they are so delivered and accepted by the Governor, Attorney General and State Treasurer, shall audit the entire account for furnishing the statutes in accordance with the contract price, and draw his warrant upon the State Treasurer therefor.

SEC. 7. The Secretary of State is hereby authorized and directed, to furnish to the contractor for furnishing and publishing the statutes, the copy for the same, as rapidly as it can be prepared from day to day, as the same is deposited in his office.

SEC. 8. The Constitution of the United States, and of the State of Wisconsin, the Declaration of Independence, and such United States Laws and Ordinances as are in the present Statutes, shall be published with the Revised Statutes.

SEC. 9. There is hereby appropriated, out of any money in the State Treasury not otherwise appropriated, a sum sufficient to pay all warrants drawn in accordance with the provisions of the preceding sections of this act.

SEC. 10. The bid hereinbefore mentioned, shall be so much per volume, of one thousand pages, and so much for each additional hundred pages.

SEC. 11. This act shall take effect and be in force from and after its passage and publication, and the State Printer is hereby required to publish it immediately after its passage.

Approved May 17th, 1858. my26e557d??
